SCREWDRIVERS

MORE COMFORT MORE POWER

Size and tip marked at the bottom of each handle for easy identification

Hole in handle for hanging or for use with fall protection wire

Ergonomically designed 2 component grip gives better support, increased comfort, and improved power transfer

Handle moulded around the blade with wings inside handle for extra torque capacity

Shaft made from TT-MV PLUS steel alloy for greater strength and material flexibility

Magnetic tip designed to maximise torque transfer and reduce wear

The screwdriver blades are insulated before the handle is moulded, making the screwdrivers safe to use up to 1000 volt.

Integrated protective insulation with two colours to clearly indicate if there is any damage to the insulation

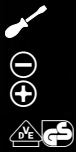

RBD shafts are ultra slim allowing for recessed screws to be accessed easily

All 1000 volt tools from TengTools meet all specifications that the relevant authorities have established.

HOW DO THE TRAYS FIT?

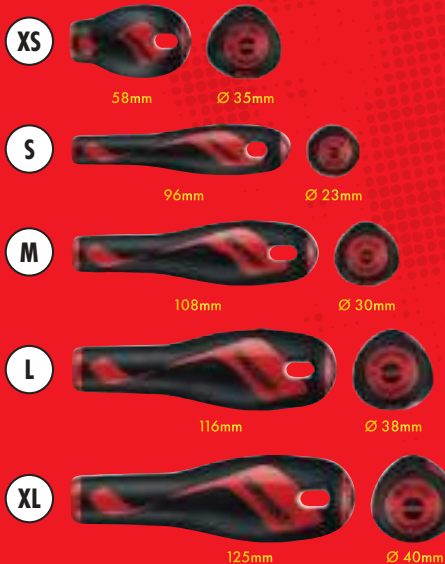

CHOOSE THE TOOL TRAY SIZE BELOW TO FIT THE SPACE IN YOUR STORAGE:

GET ORGANISED

CHOOSE THE RIGHT HANDLE

A larger type of handle allows for more power and force to be executed while a smaller handle makes it easier to work quickly as less force is required.

POWER THROUGH SCREWDRIVERS

Percussion cap at the base of the handle and a full length integral blade allows for use with a hammer to release stubborn screws

BITS & DRIVERS

GET THE JOB DONE FAST

An extensive range of bit drivers are available in the range including ratcheting drivers, stubby drivers and folding handle drivers for greater power transfer.

A selection of drivers are available with a bits storage facility in the handle so you can avoid wasting time searching for bits when you need them.
